Price:

175.00 \$

GE electric range/stove
Model - J BP35C0H2CC
Age - Unknown
Cubic Ft - Unknown

This is an "as is" purchase and I can not deliver or help load it.

This range came with a house that I bought and I am replacing it with a stainless range. I have never used it myself, so I don't know anything about the range except that it is in good condition and all bake, broil, and stove-top elements work. It is a self-cleaning oven but I do not know if the self-clean function actually works. please see all dimensions below:

Outside Dimensions:

29.75" - wide

36" - height - to stove-top

47" height - to top of control panel

25" depth - without handle

27" depth - with handle
